

SAUNA CATALOGUE 2011

helo

HELO Genuine Sauna & Steam

Sauna has been around for more than 2000 years. Historically, it has been an ongoing cornerstone of Finnish culture, an essential of everyday life. Within sauna walls, we find a few precious moments to reflect on the day, share a laugh with loved ones, or just unwind and enjoy the glow earned from physical effort. Today's Helo saunas, steam rooms and accessories are an original, honest expression of our Finnish roots. We know what a relaxing, rewarding, reviving few minutes of soft heat can do for the body and soul. You will see it in the quality of our craftsmanship, the breadth of our service and in our obsessive attention to detail—a true passion for making the genuine sauna experience available to all.

HELO every day

We believe everyone should be able to enjoy the physical, emotional and spiritual benefits of sauna every single day. That is why you will find so many choices in this catalogue. Styling options to suit almost any home and taste in decor. Functional features that help you recreate the daily sauna experience you and your family appreciate best. And a host of extras that let you customise the comfort to your exact specifications. With Helo, there are no barriers to making a genuine sauna experience a natural part of every day home life. That is our commitment: Helo for all, every day.

Health and relaxation

The healing benefits of sauna have been known by cultures around the world for at least a thousand years. After a workout, it soothes aching bodies. After any activity, it renews passion for life. Regular use of sauna or Infrared can help detoxify your body, melt away muscle and joint aches and pains, and relieve stress. It is one of the very best investments you can make in you and your family's health and well-being. The physical benefits combined with the associated stress reduction makes the decision to purchase a Helo experience an easy one—it not only feels good, it's good for you.

Quality and environment

The genuine Helo experience begins long before the first wave of soothing heat touches skin. When you choose Helo, you are ensuring only the very highest level of commitment to quality and safety will become part of your home. Our materials and production comply with all international safety regulations and recommendations. We work on the principle that quality is important to even the smallest detail—and that quality must be realised responsibly. This is your assurance that only the best materials and production processes are used in creating your personal sauna experience.

The importance of wood, water and nature in the genuine sauna experience shapes our commitment to environmental responsibility. Our production design and improvement team continually develops solutions to reduce energy consumption. Environmental factors play a crucial role in our choice of raw materials. And we are always finding new ways to reduce the amount of waste and maximise the useability of raw materials in the manufacture of our products.

Tradition and innovation

The sauna is rich with tradition. And like all good traditions, it is as relevant today as it has always been.

In the old days, the sauna was a simple detached cabin standing at the edge of the yard. Over the years, we have continued to adapt the sauna in keeping with the times—today, the Helo experience is equally at home in a high-rise apartment or a detached house.

Today's sauna tradition is being shaped by Helo's complete, modern line that includes sauna rooms ranging from the most straightforward to uncompromising luxury. At their heart, your choice from a wide selection of electric and wood-fired heaters and infra-red generation technology. High tech control systems let you take easy advantage of all the options available to tailor your Helo experience. And accessorizing with everything from bench pillows to water pails gives your modern sauna a personal touch.

Still, Helo research and development is always working to develop new products and solutions. The future of sauna is as important to us as its past, and we draw on the feedback from our professional partners worldwide to lead the way in product and service innovations.

At Helo, the genuine sauna experience is being continually updated to meet the realities of modern living. But it will never lose its soul.

■ Design at its best

At Helo, design and performance go hand in hand to provide your ultimate sauna experience. Many of our products, including cabins and heaters, are the result of close collaboration with some of the world's most renowned designers. Working with top designers and experts ensures new products both look and perform to our—and your—most exacting standards.

The seamless incorporation of craft and stylisation offers you a modern, flawless sauna experience adapted to your individual tastes and needs.

SAUNA CABINS

The genuine Helo experience comes in many sizes, shapes and styles—each a singular expression of quality, expertise and design. So which one is right for you? You want a sauna cabin to become a seamless part of your every day home life—which means considering structure and performance specifications as well as aesthetics. In the next few pages, you will be introduced to many of our cabin layouts and options. Whatever your choice, each offers the comfort, dependability and well-being only a genuine sauna from Helo can provide.

In some cases, Helo sauna cabins can be modified to accommodate any special needs or requests you might have. If you have any questions, please do not hesitate to contact the Helo sales office on 01342 - 300 555.

Choosing the right sauna

Helo's comprehensive range of sauna cabins embraces all the styles and environments you could wish for. From EASY, clip together cabins which plug in to a 13 amp socket, through to unique bespoke rooms, built to the last panel to your design!

LUMI SAUNA - A LUXURY SAUNA IN EVERY RESPECT

Lumi is the latest addition to Helo's sauna range. Finished in top quality spruce, first choice for the sauna traditionalist, with abachi benches which stay cool when the sauna is hot, and including all interior furniture and accessories. Lumi is available for quick delivery in a wide range of standard shapes and sizes for DIY or Helo assembly.

BESPOKE SAUNA - TO FIT ANY SPACE WITH LIMITLESS OPTIONS

Take advantage of Helo's extensive experience to create exactly what you desire. Choose the wood finish, windows, heater style, and interior layout, then select those extra luxuries which make your sauna special – feature lighting, music or TV, fragrances and variable humidity. Tell Helo what you want and we'll design and build to your specification.

DESIGNER SAUNA - MAKE A STATEMENT, EXQUISITE FINISH, INNOVATIVE DESIGN
 With dark woods, frameless glazing and innovative interior designs, including Helo's latest specialist heaters, these models are far removed from the popular rustic view of sauna. Choose from a number of sizes and layouts to enhance your wellness suite and rest easy with Helo's full installation service.

OUTDOOR SAUNA - THE ULTIMATE FINNISH LOG CABIN FOR SAUNA TRADITIONALISTS
 Made in the time honoured way with Spruce logs, Helo outdoor saunas are as rugged and dependable as they are attractive - ARCA models in a number of popular sizes are easily assembled using 40mm upright log or, to special order, traditional Finnish Cabins offer sauna and lounge area in 60mm log with strong traditional cross lap construction.

EASY SAUNA - THE EASIEST WAY TO ENJOY SAUNA - OUTDOOR, TRADITIONAL OR INFRARED
 The easiest way to enjoy sauna at home! Choose from infrared for deep heat comfort, or traditional sauna with rock heater for a soft steam environment, inside or outside the home. Easy to buy, easy to build, easy to use, easy to own and easy to live with.

Sauna Cabins

LUMI

HELO 3 YEAR WARRANTY

LUMI is Helo's newest sauna line, offered in a wide range of sizes, versatile corner door options and special Espoo model with smart rounded front profile. These well built cabins are finished throughout in top quality Spruce panelling – first choice of the sauna traditionalist. All benches and interior furniture is Abachi – an attractive light wood which is smooth, splinter free and always remains cool in the sauna heat. Standard specification includes a diffused sauna light, pail, ladle, thermometer, hygrometer and sandtimer – everything you need for the best in sauna!

A luxury sauna in every respect

Delivery is included in the LUMI price - with pre-built panels in easy to handle sizes and full instructions provided, DIY assembly of the cabin is straightforward or alternatively, take advantage of Helo's fixed price installation service and leave it to us.

Fine material, perfect surfaces, clean workmanship.

- + Elegant clear safety glass door with window options for spacious open environment
- + Helo's latest streamlined LUMI heater with easily accessible controls for simple setting of time and temperature
- + Smooth cool Abachi seating to stretch out in comfort
- + Free of charge delivery service
- + Fixed price installation service - you provide floor and electrical hook up and the sauna is ready for use
- + 3 year warranty, leaving you carefree to enjoy your sauna!

■ LUMI SAUNA HEATER

The LUMI heater represents the best in Finnish sauna - a deep and wide rock store to offer lots of steam for a soft warm environment, elegant shape with gently curving sides and simple time and temperature controls.

Sauna Cabins

BESPOKE BUILT

Helo is the largest sauna and steam company in the World. We have many years of experience and extensive design, development and manufacturing facilities - no company is better qualified to create the perfect sauna for you. Our bespoke build service allows you to take full advantage of our knowledge and resources in choosing a sauna that looks, works and lasts great.

We can design and build a sauna in any shape or size, build one into a recess, with a sloping roof, blend the exterior to your surrounding décor – all fine with Helo! And with a variety of wood finishes – carefully chosen to provide good sauna – many window and door options, fantastic heater designs, and much more, your sauna will be unique!

Remember, Helo will assist at every stage of the process, from planning, site survey, CAD designs, product sourcing, building the sauna and installation, we aim to fulfill your exact specification, trouble free from start to finish.

The steps to creating sauna

- +** Plan the shape and layout – Helo’s efficient insulated panel system allow us to produce a sauna to almost any size.
- +** Choose the timber finish – such as our traditional Spruce paneling with small light knots for the renowned “pine” fragrance, light smooth Aspen for a modern look, or characterful Cedar with its unique scent and random finish. See our wood page for all the choices.
- +** Select a door style – standard bronze tinted glass with threshold or upgrade to the wider, no threshold version and tile through from the surrounding area. Need to match the steam room? No problem we can supply the same door for each.
- +** Add windows to give the cabin an airy open feel – there’s even opening windows with a multi-rebate for a snug fit to keep the heat in.
- +** Plan your sauna heater – the heart of the sauna. No one offers more options than Helo. Regular models all feature lots of rock for good steam. Increase the versatility of sauna with our FUSION model with digitally controlled steam generator for a wider choice of temperature. Convenience and style meet with special cool-wall models which can be built-in to the benches. See heater pages for more information.
- +** Consider adding some luxuries – the mood enhancers which really make sauna a special experience. With feature lighting, music and fragrance you will influence the senses and greatly enrich the sauna bathing experience. See optional extras page for more details.
- +** All Helo saunas include a useful range of accessories but check our accessories page for any extras you may like to add.

When your specification is settled simply ask Helo to make you a plan and quotation. Our experienced staff are at your disposal to fine tune your sauna and ensure it meets your precise wishes.

Once your order is agreed, we'll give clear concise information on site preparation and schedule the fitting of the sauna by our own carpenters to suit your program - a streamlined process to guarantee the minimum of fuss and a sauna cabin tailored for you! And with Helo quality and our 3 year warranty you can rely on years of trouble free service.

Sauna Cabins

BESPOKE WOOD TYPES

SCANDINAVIAN QUALITY

There's a good reason we only use wood in our saunas. Specifically, high quality Scandinavian or northern climate wood. Trees from the far north grow much slower because of the extreme climate, increasing their density. This makes them much better at withstanding the wide daily temperature and humidity fluctuations of your sauna. Our ancestors knew this, which is why they chose solid northern wood as the only construction material in their saunas—inside and out.

All our wood is quality inspected at its source before transportation to the factory, where the logs are cut and planed. Each individual tree has its own character in colour and structure. These are distinctive signs of a natural product, showing its exclusive, individual character, with no impact on final quality.

HOW HELO USES WOOD

- + Sauna cabin structure and exteriors are made of low-resin varieties such as spruce, pine, Canadian or European hemlock.
- + Interior fittings are made of special abachi soft-wood, which is splinter free, smooth and durable with very low heat retention
- + We NEVER use low quality chipboards or plywood. Every part of your Helo sauna is made with solid wood planks

WHY WE USE WOOD EXCLUSIVELY IN OUR SAUNAS

- + No material other than wood is used to build your sauna, with the exception of decorative elements on the outside of the cabin
- + Wood has low heat conductivity. This means we can touch it even at high temperatures without risk of burning ourselves.
- + Its natural fibre structure allows it to absorb steam and moisture and release it again, making it ideal for saunas
- + Wood is stable and durable, muffles sound and radiates a pleasant, natural warmth

Woods used in Helo saunas

NORDIC SPRUCE

Low-resin, slowly-grown northern classic is durable and dense with many small character-enhancing knots

CANADIAN HEMLOCK

A very strong and dense dark red wood with a distinctive fine-grained structure. Low resin, knot-free

NORDIC PINE

Durable with a smooth, nearly knot-free character that creates an even, warm-looking surface

RED CEDAR

Has very little resin, yet still has that characteristic cedar smell. Cedar colours can range from red to dark brown.

ASPEN

From the poplar family, aspen is a clear, light wood that is excellent for interior fittings

EUROPEAN HEMLOCK

White-yellow softwood with fine grain. There are no resin channels in the wood. European hemlock is very resistant to humidity.

ABACHI SOFTWOOD

Soft wood, knot- and splinter-free. One of the few woods we use that is not native to northern climates. creates an even, warm-looking surface

The choice of the sauna enthusiast, durable 12.5 mm Nordic spruce panelling

Red cedar from North America gives a distinctive fragrance and look

Aspen has a unique heat conductivity resistance—it stays comfortable to the touch regardless of temperature.

Trim in abachi softwood, as well as benches, headrests, backrests, duckboard, bench aprons, heater guard rail and light unit

MANY OTHER WOOD TYPES AVAILABLE ON REQUEST

Sauna Cabins BESPOKE EXTRAS

FREEVIEW TV

If you prefer a longer stay in the sauna at lower temperatures, you may like to relax with your favourite TV program. Helo offers compact 7" and larger 17" screen models, both with special heated screen and neat timber trim to match the cabin - twin speakers are concealed below the sauna benching.

STEREO & SPEAKERS

Listening to gentle music can be a great mood enhancer while sauna bathing. HELO's quality, branded stereo system, includes Radio, CD, MP3 (with ipod compatibility), with water proof head unit mounted outside the sauna, a wired remote control and speakers mounted inside the sauna.

Or you can use your own hi-fi and connect to Helo's quality speaker system. Two 100W water proof speakers built for mains systems are controlled by a rugged dial type volume control, all mounted inside the sauna. A handy switch-box lets you switch between the sauna speakers and your existing hi-fi speakers as required.

WINDOWS

Imaginative use of glass in the sauna can really add to the style and change the traditional image of the sauna cabin. Helo offers efficient double glazed windows in conventional and porthole shape or even opening windows to provide access to existing with multi-rebated frame to minimize heat loss. For special designs frameless windows in custom shapes can be bespoke built to order.

AROMA THERAPY

Adding essence to the sauna water which is sprinkled on the sauna rocks is another way to vary the effect the sauna has on the mind. With our wide range of natural fragrances it is even possible to capture the seasons with Summer Flowers and Cool Winter Mint. For the ultimate in luxury you can add an auto dosing system with optimal "on demand" buttons.

FIBRE OPTIC LIGHTING

Light therapy is a proven way of enhancing your sauna enjoyment by varying the mood with lighting effects. Imagine bathing in balmy heat under a starlit sky - this is the effect of our Night Sky system with around 100 starlights which gently shimmer overhead. Or consider the Wall Wash system where the wall is bathed in a fan effect of warm amber light. Both systems may be specified with sequential colour changing if preferred.

Our high quality Glass Fibre Optics are absolutely reliable and safe in sauna use - the single light source mounted remote from the cabin is unaffected by extremes of heat.

Sauna Cabins

DESIGNER-CUBE

The CUBE sauna cabin brings a mix of modern material to traditional sauna comfort. Glass and stainless steel offer a modern design aesthetic to the exterior. Inside, soft wood panelling creates a sense of light and well-being. CUBE is particularly suited for modern living or bathroom decors, where its sophisticated yet inviting presence complements its surroundings. Eye-catching yet soothing, CUBE is an invitation to relax and rejuvenate in style. Available in Wengé or White.

A study in contrasts

HELO 3 YEAR WARRANTY

CUBE's instant attraction comes from its contrasting interplay of materials and colour. The dark Wengé or White veneer exterior is softened yet put in relief by the light Aspen interior that beckons through the partly glazed glass front. As an option, a sliding panel with a mirror and varnished, light-green tone can be added to the windowed wall.

Fine material, perfect surfaces, clean workmanship
—the CUBE is convincing in every detail.

- +** Quality Wengé or White veneer exterior combines with Aspen interior to classic yet modern effect
- +** Fittings in stainless steel add a subtle yet distinct high quality touch
- +** ESG partially glazed glass front panels offer high style on the outside, a feeling of space on the inside
- +** Optional LED light dimmer allows you to set the mood
- +** Available in three standard sizes to let you best take advantage of the space available: 187x203, 204x203 and 212x203 cm, or can be special ordered in any size to suit your requirements.

STANDARD SAUNA HEATER

The Cava sauna heater works well with CUBE thanks to its complementing contrast in material: elegant rounded stainless steel with soap stone slats. Below the soap stones, 30 kg of hidden sauna rocks provide evenly distributed heat.

EXAMPLE OF LAYOUT

CUBE comes in three standard sizes, (other sizes available as special order) making unique and eye-catching sauna work with the dimensions available to you. In any size, there's comfort and closeness for two with a refreshing corner of clear space to enhance the overall feeling of roominess.

PRICES AND DIMENSIONS

MEASUREMENTS (cm)	PRICE
187 x 203 x 216	£ 18 129
204 x 203 x 216	£ 18 264
212 x 203 x 216	£ 19 232
Optional sliding panel	£ 1 976
Optional LED colour light system	£ 4 823

Sauna Cabins

DESIGNER-COMFORT

Everything about COMFORT sauna cabins says welcome. Its golden interior is a constant invitation, promising genuine warmth and cosiness through the dual-wall glass panelling. There's a real sense of roominess too; unimpeded sight lines, three-level interior, wide, easily-moveable benches... All complemented by a stylish yet deceptively powerful sauna heater that sets the ideal conditions for relaxation within minutes.

Simply stylish

HELO 3 YEAR WARRANTY

With its subtle aesthetic touches, COMFORT has a look all its own. Notice the elegance of the large glass panels without a corner post. Or the sleekly convenient extra-large door handle and soft splash of light from the integrated ceiling fixture. COMFORT is as much about what you don't notice as what you do.

- +** 19 mm European hemlock panels on all 4 interior walls and the 2 visible exterior walls create a sense of elegance that spreads to the whole room
- +** Clean ESG glass fronts with no corner post and door provide a seamless design feel
- +** Triple level interior for maximum comfort, the lowest level in premium near-knotless Aspen
- +** Solid water-resistant aluminium base frame to protect your investment
- +** Moveable ergonomic backrests and bench aprons let you customise the look and feel of your COMFORT
- +** Available in your choice of three standard layouts

STANDARD SAUNA HEATER

The Cava sauna heater works well with CUBE thanks to its complementing contrast in material: elegant rounded stainless steel with soap stone slats. Below the soap stones, 30 kg of hidden sauna rocks provide evenly distributed heat.

Integrated ceiling lighting provides a soft splash of calming light

EXAMPLE OF LAYOUT

COMFORT offers three layout options, making it easier to find one that works best for you and your home. Each is easy and convenient to install, letting you enjoy the genuine sauna experience as quickly as possible.

PRICES AND DIMENSIONS

MEASUREMENTS (cm)	PRICE
212 x 195 x 220	£ 29 257

220 x 220 x 220	£ 31 451

Sauna Cabins

DESIGNER-CUPREME

CUPREME is a spaciouly-stylish option that brings the positive benefits of sauna to a whole new level. Designed to provide individual pockets of temperature preference, CUPREME's aspen interior is perfect for enjoying the gentlest sauna climate possible with no bracing temperature changes. Clean and classic on the outside yet deceptively roomy inside, CUPREME makes sharing a soft, soothing sauna with family and friends impossible to resist. Available in Wengé or White.

Perfect climate

HELO 3 YEAR WARRANTY

CUPREME's combination of heating from a high quantity of heating stones and all-natural configuration create optimal conditions for relaxation. Heat is reflected from wood and stones only. This makes the temperature build-up gradual, so you can relax even when strong infusion is applied.

- +** A completely space-customisable solution, sized in 11cm increments for maximum flexibility
- +** 58 mm European hemlock interior walls and ceiling reflect heat without added insulation and minimised use of materials
- +** Two outer walls in natural wood and two finished in high quality Wengé or White veneer
- +** Designed to last with warp-free planks, offering you many years of trouble-free enjoyment
- +** Large glass wall and door create a sense of space and feeling of high design

Hemlock logs create a sense of traditional quality and are easy to assemble

Rocher heater available with glass or soapstone collar.

EXAMPLE OF LAYOUT

With CUPREME, you choose the sizing and proportions of your personal sauna in 11cm increments. We custom-produce your sauna according to your exact specifications. We can also help you measure your space on site and make appropriate recommendations.

STANDARD SAUNA HEATER

The powerful Rocher sauna heater is the ideal match for CUPREME. It can be installed anywhere in the sauna, providing even heat from its 100kg of Finnish stones to every corner of the cabin.

CONTACT HELO FOR PRICE INFORMATION

Sauna Cabins

DESIGNER-SPRING

SPRING offers an ideal combination of sensibility and modern design. Sleek, light and multi-textured, SPRING materials complement almost any modern decor. Inside, relaxation and well-being are assured thanks to a mild sauna climate, perfectly controlled thanks to quality heating and insulation behind the genuine Nordic spruce panels. Easy to assemble and easy to appreciate—what better reasons to bring SPRING into your home.

14 steps to a healthier you

HELO 3 YEAR WARRANTY

Enjoying SPRING might happen faster than you think. The cabin consists of 14 pre-fabricated lockable sections. A little assembly effort, maybe with some help from the family, and the reviving qualities of a genuine sauna experience will be yours to enjoy. Time and time again.

- +** Element sauna in attractive and durable 12.5 mm Nordic spruce panelling—quick set-up
- +** Includes three max comfort sauna benches (50/60 cm wide), two headrests, duck board, and three-sided heater guard rail for maximum safety and comfort
- +** Three different layouts to choose from

Beige metal plate and tinted glass combine for a modern, eye-catching look

Recessed lighting provides a soothing, relaxing atmosphere

STANDARD SAUNA HEATER

CUP's compact power ensures it fits right in with SPRING. Its streamlined top and duo aluminium/zinc shell optimise heat generation and distribution. Requiring 15kg or 23kg of stones, CUP is small enough to be accessible yet out of the way in the SPRING layout and still produces an even, soft climate.

EXAMPLE OF LAYOUT

Compact yet intelligently laid out, SPRING saunas in any of their three layout options could be ideal for your home.

PRICES AND DIMENSIONS

MEASUREMENTS (cm)	PRICE

202 x 202 x 198	£ 8 656

Sauna Cabins

OUTDOOR SAUNA

Not so long ago, all saunas were enjoyed outdoors—close to the house, and perhaps close to a lake. Today you can experience all the joys of that tradition with an outdoor genuine Helo sauna tailored to your exact needs. Helo outdoor cabins do not come in any preconceived format. Instead, you choose the wood, sizes and fittings you prefer: we take care of the rest. Take comfort in our years of experience and expertise in the design and building of genuine outdoor saunas—it will result in a family wellness centre that not only looks and feels good, but can add value to your home.

Quality time

Imagine having your very own outdoor retreat, where the whole family can take a rejuvenating break together. If you have a pool or hot tub, everyone will enjoy the healthful benefits of deep-body heat followed by a quick, refreshing dip—and doing it all over again. A genuine Helo outdoor sauna, tailored to your exact specifications, makes family time quality time.

HELO 3 YEAR WARRANTY

- + Getting started is as simple as calling us with your idea—we'll build your dream outdoor sauna according to your specifications
- + You can choose from a wide variety of layouts, woods, fittings, stylings and sizes. The only limit is your imagination
- + Enjoy even more of the traditional outdoor sauna feeling with a modern, highly-efficient wood burning stove
- + Fully insulated, keeping the genuine soft sauna climate in regardless of what's happening outside.

A genuine outdoor sauna from Helo is purpose-designed just for you. So why not add your own special touches—such as an integrated carport, as shown here.

STANDARD SAUNA HEATER

HELO wood burning heaters add a real sense of genuineness to the outdoor sauna experience. Available in sizes providing 12 – 28 kw of efficient heating power, each is solidly engineered in a quality steel casing with an extra large rock pocket. The burning system keeps maintenance to a minimum by preventing soot from building up in the heater.

Outdoor genuine Helo saunas are custom made to your specifications. Our advisors have many years of experience in tailoring a back yard wellness centre for different landscapes and needs—call Helo on 03142-300 555 any-time for advice or to schedule an onsite consultation.

EXAMPLE OF LAYOUT

EASY - OUTDOOR, TRADITIONAL OR INFRARED

EASY - Quality with convenience. At Helo we recognize that convenience is all important. EASY is a range which truly lives up to its name, with 3 options to choose from, traditional outdoor sauna, traditional indoor sauna or infrared.

EASY TO BUY - full specification is standard with no hidden extras

EASY TO BUILD - modular panels for simple assemble by anyone in as little as 30 minutes - most models plug into a household socket

EASY TO USE - intuitive controls and compact efficient cabins which heat-up quickly

EASY TO OWN - dismantle and move as circumstances dictate

EASY TO LIVE WITH - contemporary designs will blend with and enhance the style of your home

Easy outdoor sauna ARCA GARDEN SAUNA

HELO 3 YEAR WARRANTY

The best way to enjoy your garden

To enjoy sauna in the time-honoured natural way, nothing beats a genuine Finnish log chalet in the garden. Until now the complexity of construction and service requirements has proved daunting for many - ARCA provides the solution!

The solid Spruce logs are formed into readymade modules which are simple to assemble, topped with a two piece felted roof. Perfect on the patio or next to a hot tub these family sized cabins create a real spectacle in any garden.

ARCA FEATURES INCLUDE:

- +** 39mm thick logs make for a truly solid, long lasting structure
- +** Pitched roof with wood trims for the authentic "chalet" appearance
- +** All glass door and windows make the cabin feel roomy inside
- +** Quality interior furniture in warm-coloured Alder wood
- +** Traditional rugged sauna heater with full width rock tray for plenty of relaxing steam
- +** Substantial 19mm flooring to keep the cabin warm and dry

Easy outdoor sauna ARCA 3

Arca 3 - a compact cabin with impressive 1.8m fascia, the central all glass door flanked by double glazed panels affording a wide view of the surrounding grounds. The shallow depth of just 1.3m makes it easy to stand on the side of a patio or deck alongside garden furniture while the 1.64m wide bench allows for lounging in comfort. And it's the best of both worlds - built in modules - easy to assemble and maintain - but retaining solid Spruce logs for a genuine Finnish sauna experience.

LAYOUT

Easy indoor sauna ROCK TRADITIONAL SAUNA

HELO 3 YEAR WARRANTY

The age-old ritual for the modern home

For those seeking the ultimate relaxation of Finnish sauna with steam or the social pleasure of sauna bathing, these cabins offer high specification with plug-in convenience, a quality rock heater and superb insulation for great heat retention. With compact dimensions and clip-together assembly the genuine sauna experience is easy to achieve.

FEATURES:

- +** Helo sauna heater with generous rock store and easy side mounted controls.
- +** Glazed door and front panels with soft LED lighting for a calm relaxed interior
- +** Fan cooled stereo radio and CD for music of choice
- +** 6-colour mood lighting with sequential or fixed settings
- +** Plug in to twin socket - or upgrade to larger hard wired heater* for those who like it really hot!

* requires electrician to connect.

Easy indoor sauna ROCK 2

Rock 2 represents a first for sauna. In little more than 1m² floor space you'll enjoy a genuine sauna experience. There's ample room for two, Helo's famous MINI rock heater offers that authentic steam sensation while colour lights and music system enhance the mood. Assemble in minutes, plug in, sit back and enjoy!

LAYOUT

■ SPECIFICATIONS

- Floor space only 1.21 x 1.18m – vinyl covered floor included
- Frameless Glass door and adjacent full height window
- Benches at two levels
- Compact, plug in heater with full width rock tray
- Stereo Radio/CD, Chromotherapy and canopy lighting

PRICES AND DIMENSIONS

MEASUREMENTS (cm)	PRICE
131 x 125 x 203 (wdh)	£ 3 245

Easy indoor sauna ROCK 4

With its 1870mm width Rock 4 is the ideal family model. Two level benching offers real flexibility – children can sit low where it’s cooler, while enthusiasts can stretch out at high level in the heat. Glazed panels in the fascia give an open, airy feel. Plug-in convenience, or take the free upgrade to 4.5kW heater*.

SPECIFICATIONS

- Floor space of 1.87 x 1.35m – vinyl covered floor included
- Compact family model with seating for up to four
- All glazed fascia with neat centre door
- Illuminated canopy with 3 LED lights
- 3kW plug in convenience or no cost upgrade to 4.5kW for higher temperatures
- Mood lighting and Stereo included

PRICES AND DIMENSIONS

MEASUREMENTS (cm)	PRICE
122 x 187 x 203 (wdh)	£ 3 995

* 4.5kW heater must be wired to fuse board by qualified electrician

Easy indoor sauna ROCK 4C

Like Rock 4, a family model but with the benefit of space saving corner door design. Tucking neatly into the corner of a room, the elegant Hemlock fascia will blend with most décor, while glazed side panels give a panoramic view, making the cabin feel light and spacious. Mood lighting and Radio CD will complement the unique sense of wellbeing.

LAYOUT

■ SPECIFICATIONS

- Fits in corner location 1.54 x 1.54m - vinyl covered floor included
- Elegant space saving design with glazing on three sides
- Generous 1.45m wide benching
- Illuminated canopy over corner door
- Full featured with colour lighting and Radio/CD
- 3kw plug in heater or upgrade at no cost to 4.5kW

PRICES AND DIMENSIONS

MEASUREMENTS (cm)	PRICE
154 x 154 x 203 (wdh) (wdh)	£ 4 095

Easy indoor sauna ROCK 6

The L-shaped high-level seating in this model lends itself to the social occasion of sauna. Despite its imposing presence Rock 6 is simple to assemble without tools in less than an hour. The 4.5kW* heater – a no cost option – is recommended but a good steamy sauna is possible with 3kW where only a plug socket is available.

LAYOUT

■ SPECIFICATIONS

- Floor space of 2.17 x 1.52m – vinyl covered floor included
- Full size cabin with room for four to stretch out in comfort
- Social and convenient “L” shape bench layout.
- 4.5kW no cost upgrade recommended - 3kW where power is restricted
- Full width canopy with triple LED lighting
- Colour light therapy and Stereo included

Easy infrared sauna INDOOR INFRARED SAUNA

HELO 3 YEAR WARRANTY

Speedy heat for energy or rest

IR has long been renowned for deep heat treatment. The penetrating warmth of IR is uniquely pleasant and relaxing whilst relieving aches and pains and deep cleansing the skin through gentle perspiration. Just like bathing in tropical sunshine, especially rewarding when it's cold outside.

Popular today for warm-up before exercise or to aid restful sleep in the evening, the effect is quick and efficient. Helo's cabins feature the latest technology and lots of mood-enhancing extras for a great heat experience!

THE BENEFITS OF INFRARED CABINS:

- + Relieving strains and loosening tired muscles
- + Improving circulation and stimulating metabolism
- + Clears impurities, detoxifying the skin
- + Lower heat levels are gentler on cardiovascular system
- + Infrared warmth may strengthen immune system
- + Deep relaxation for body and mind
- + Warms muscles to prepare for physical activity or to aid restful sleep.

HELO IR CABINS ADD:

- + Safe to touch, high efficiency carbon flex panels throughout
- + Soft LED lighting for a relaxed environment
- + Concealed Stereo Radio/CD with remote control for music to suit the occasion
- + 6-colour mood lighting, sequential or fixed to influence the senses from invigorating to relaxing.
- + Digital control panel for easy programming
- + All models plug into standard electric socket - plug and play

CHOOSE FROM 3 PRODUCT LINES:

ZEBRANO: Our new luxury cabin with stunning frameless glass fascias complemented with unique Zebrano wood profiles. Increased heat output, new multi-colour mood lighting, branded stereo and switchable bench and floor heaters all come as standard.

LUXUS: Available in 6 sizes including 2 space-saving corner models, with smart hemlock paneling inside and out, bow-front canopy with LED lighting, 6-colour internal mood lighting, fold away stereo with MP3 and remote, heated floor, heated bench and extra leg heaters.

WARM: All the quality of LUXUS but with fewer frills, the feature list still includes: safe Carbon Flex heating panels, soft LED lighting, fold away stereo and smart toughened glass door and windows.

Easy infrared sauna ZEBRANO

Helo's latest generation of IR cabin, Zebrano has been designed with the emphasis on contemporary style coupled with the best possible performance as a deep heat cabin. Elegant frameless glass sections blend with soft Zebrano wood profiles and beautiful Stainless Steel door handle to make a real style statement.

Inside, the latest high performance Carbon Flex panels are all-surrounding and complemented by switchable heated seating and floor.

A quality, branded Stereo system which neatly tucks away in the roof, the latest multi-colour mood lighting and straightforward digital controls - all included to offer the ultimate Infrared experience!

Easy infrared sauna ZEBRANO 1

Where space is at a premium, model 1, with its compact footprint of just 1.2 x 1m is ideal. With comfortable room for two and an all glass front the cabin feels light and spacious and blends easily with its surroundings like a smart piece of contemporary furniture.

■ SPECIFICATIONS

Easy infrared sauna LUXUS

HELO 3 YEAR WARRANTY

Renowned for their numerous health benefits, Infrared sauna cabins are the latest must-have health product.

Users claim to experience relief from physical conditions such as arthritis, back pain, muscle and joint problems, as well as stress relief, improved sleep and a clear complexion.

Helo cabins feature CarbonFlex™ heating panels which have the largest surface area of any IR sauna currently available. All cabins come as standard with Canadian Hemlock hardwood panelling inside and out, halogen lighting inside and out, interior colour light therapy, CD/AM/FM stereo with remote control and internal and external control panels for time, temperature, lights and colour therapy.

The saunas are modular and clip together making assembly (and dismantling) very simple. All the cabins simply plug into a standard household plug socket.

FEATURES:

- + Helo CarbonFlex™ heating panels
- + Prefabricated wall panels, finished inside and out with clear T&G Canadian Hemlock
- + Fast assembly with no tools
- + Helo digital control system mounted inside and out
- + AM/FM/CD stereo system with easy-to-use remote control.
- + High quality, heat-proof stereo speakers pre-installed in the ceiling panel.
- + Integral heated ceramic floor tiles.
- + Deluxe all glass door.
- + Low-voltage mini-spot lights installed in the ceiling.
- + Integrated colour light therapy system
- + Wall-to-wall backrests, designed for user comfort and safety.
- + Pre-wired heaters, lights, stereo, etc.—with simple “plug-in” system.
- + All sizes can be plugged into a 230 volt household outlet.
- + Industry leading 3-year warranty backed by the UK's number one sauna company.

Easy infrared sauna LUXUS 10

This compact cabin is ideal for small spaces or for those who wish to use the cabin alone. Even though the Luxus 10 has a foot print of less than 1m², it still has all the same luxurious features of the larger models.

■ SPECIFICATIONS

- Compact foot print of only 92 x 92 x 190cm
- Plenty of heating panels surrounding the bathe
- Heated benches and ceramic floor tile
- Hemlock interior and exterior panelling
- Digital interior and exterior controls
- Stereo CD player with remote control
- LED colour-light therapy system

Easy infrared sauna WARM

HELO 3 YEAR WARRANTY

If you would like to enjoy all the benefits of Helo's latest IR technology – super-safe Carbonflex panels, smart Hemlock paneling throughout, soft LED lighting and clear safety glass door – but without all the extras, WARM is the line for you.

Offered in three useful sizes, the powerful heaters will quickly warm and provide comforting relief and relaxation. And without the lighting canopy, WARM can be squeezed into even tighter spaces making it ideal for apartments and rooms where space is precious. WARM includes as standard a neat fold-away stereo and the same safety glass panels found in the top spec LUXUS or ZEBRANO and is ready to plug in to a regular home socket.

Proudly wearing the Helo brand and with full 3 year warranty, you can select WARM with confidence.

FEATURES:

- + Helo CarbonFlex™ heating panels
- + Prefabricated wall panels, finished inside and out with clear T&G Canadian Hemlock
- + Fast assembly with no tools
- + Helo digital control system mounted inside
- + AM/FM/CD stereo system
- + High quality, heat-proof stereo speakers pre-installed in the ceiling panel.
- + Deluxe all glass door.
- + Low-voltage mini-spot lights installed in the ceiling.
- + Wall-to-wall backrests, designed for user comfort and safety.
- + Pre-wired heaters, lights, stereo, etc.—with simple “plug-in” system.
- + All sizes can be plugged into a 230 volt household outlet.
- + Industry leading 3-year warranty backed by the UK's number one sauna company.

Easy infrared sauna WARM 10

A fantastic space saver! In no more than the space taken for a home shower, one person can enjoy the snug pleasure of all round infrared warmth. Great for a quick warm-up before exercise it can stand alongside your treadmill or exercise bike. And working from the nearest 13 amp socket the low energy unit can be simply dismantled and moved as circumstances change.

LAYOUT

SAUNA HEATERS

At the heart of every genuine Helo experience is its heat. Helo heaters are uncompromising in their design; aesthetically striking, yet powered by the world's most advanced sauna heater technology. Every model is purpose-designed for optimum performance, with more sauna rocks in direct contact with heating elements. The result is softer, gentler heat and comforting steam—you can really feel the difference.

Sauna Heaters

ROCHER

HELO 3 YEAR WARRANTY

Our high capacity ROCHER sauna heater really makes a statement. Holding up to 100 kg of genuine Finnish sauna stones, ROCHER radiates soft, even heat from top to base. Despite its handsome open basket design, ROCHER can be installed in a corner, along a side wall or in the middle of the sauna. For an added design touch, you can also sink ROCHER into a lower bench and fit it with a glass or soapstone collar, either of which can be backlit to stunning effect.

100 kg of pure comfort

A ladle of water splashed on its 100kg of heating stones, and ROCHER responds with a purity and soft intensity that is impossible to resist. Its brushed steel brazier shell puts the stones in relief for an added dimension of pleasing genuineness.

- +** Greater exposed stone surface distributes heat evenly and provides soft, luxuriating steam in every direction
- +** With the longest heating elements of any heater on the market, more stones are in direct contact—ensuring purer, more stable heat radiance and maximum pleasure
- +** The high quality, modern design of the brazier steel bars easily holds the weight of the stones and can withstand extreme temperatures, ensuring years of trouble-free performance
- +** ROCHER's slim round form offers you many integration options—enjoy the purity of its design and function as a free standing heater, or sink it into a bench with backlighting for a dramatic effect
- +** Because of its high capacity, ROCHER is ideal in larger saunas—where it will provide soothing, yet gently-intensive heat to every corner of the cabin.

Learn more at
our website [www](#)

CONTROL UNIT

ROCHER comes with the Digi 1 control unit that not only lets you adjust the heater, but gives you instant one-touch control of lighting, fans and timers. Its highly visible LED display makes all the information you need clear and easy to see.

Electric Sauna Heaters

HELO 3 YEAR WARRANTY

CAVA

With its irresistibly smooth roundness, CAVA brings calming harmony to your sauna's atmosphere. Flawless soap stone faces on top and at the front absorb, store and release the heat from the 30 kg of vulcanite stones behind them. This double step ensures evenly perfect warmth and moisture. With its traditional materials and feel and advanced heat distribution concept, CAVA is an ongoing invitation to relax and recharge in genuine style.

A climate of calm

CAVA's "up and out" heat distribution system quickly sets the perfect climate for a genuine sauna experience. Because natural materials make up so much of its surface, CAVA integrates elegantly with its surroundings, letting you take even more pleasure in the calm of the setting.

Learn more at [our website](http://www.helo.com) 

CAVA's heat generation and distribution sounds simple, but there are true scientific principles at work.

- +** Dual-stage top and front heat distribution ensures quick yet gentle climate
- +** Holds up to 30 kg of high capacity core vulcanite stones for effective heat storage and radiance
- +** Attractive soap stone surfaces and rounded brushed steel shell set the mood for relaxation at a glance
- +** Available in 6kw or 9kw versions, letting you take advantage of CAVA whether your sauna is small or medium

HEAT RADIATION

Heat radiates from the core vulcanite stones inside CAVA, storing in the soap stones above and to the front of them. The soap stones release the heat and soft steam evenly both up and out, giving a perfectly even and pleasant temperature in the sauna.

CONTROL UNIT

Surface or flush-mounted to the sauna wall, the DIGI-1 control touchpad makes everything from regulating temperature to adjusting the lights simple and convenient. Its 24 hour preset timer lets you preheat the sauna ready for use at a time that suits you.

Electric Sauna Heaters

FUSION

HELO 3 YEAR WARRANTY

Sometimes, you're in the mood for the traditional intensity of dry sauna. Other times, the cleansing touch of soft, billowy steam. FUSION is the heater that lets you have both—and every climate in between. Once you set the temperature and humidity, FUSION automatically takes care of the rest. With FUSION, you get the genuine sauna experience, exactly as you prefer it.

Easy does it

With FUSION, deciding which sauna climate you want is the only hard part. Built-in electronic temperature and humidity sensors automatically correct and adjust to provide steady levels throughout your sauna. You can even choose the option of connecting your FUSION heater to a water line, ensuring the reservoir refills automatically.

- +** Heater size 175h x 140w x 30d in chrome steel casing—effective, attractive, discreet
- +** Easily holds up to 23 kg of quality heating stones
- +** Can be floor-mounted easily and safely, or you can choose to flush-mount it for added visual appeal
- +** No-fuss controls let you set automatic temperature, humidity and sauna duration. The easy-to-use control panel remembers your last setting, and lets you pre-programme sauna heating 24 hours ahead
- +** Automatic sauna drying function at the end of every session with alert signal

Learn more at [our website](http://www.helo.com) **www**

FUSION is the only heater that lets you set exact temperature and humidity levels, and maintain them throughout your sauna.

ALL SAUNA COMBINATIONS AVAILABLE

A single heater that offers every combination of the sauna experience, from traditionally dry and hot, to nicely soft and steamy.

CONTROL UNIT

FUSION comes with its own specially designed, easy-touch control system. Use it to regulate temperature and humidity balance and set the sauna time duration. The smart and convenient touchpad remembers your last setting, letting you enjoy it again with a touch of the button.

Electric Sauna Heaters

PIKKUTONTTU

The elegant Helo Pikkutonttu brings modest but necessary luxury to your sauna pleasure. First, the heater is sympathetically styled. Then you realize that every detail is in harmony. The Tonttu heater range has been specially created for Helo by renowned designer Ristomatti Ratia.

Pleasure, for the eye too

HELO 3 YEAR WARRANTY

The Pikkutonttu warms about 70 kg of stones to give a luxurious soft heat that is released as healing steam when water is thrown on the stones. The super-insulated shell ensures that the mass of stones inside heats up just as fast as an ordinary heater.

The low operating temperature of the black exterior, and the small safety distances, provide ample opportunities for creative interior design. The low surface temperature makes for a stress-free experience when children also join the family sauna. The heater is installed solidly on the floor and fixed to the wall or floor.

Helo Pikkutonttu heaters are suitable for saunas with a capacity of 3-14 m³. Helo Pikkutonttu is 460 mm in diameter and 990 mm high.

Electric Sauna Heaters

SAUNATONTTU

Helo and renowned designer Ristomatti Ratia decided to develop the perfect sauna heater. The sleek black result was called the Helo Saunatonnttu. This multi-patented innovation with a great European design is hailed by many as unquestionably the world's best sauna heater.

Toward perfection

HELO 3 YEAR WARRANTY

The Saunatonnttu secret is the 100 kg mass of stones that are very well insulated to store constant heat for long periods. The stones release soft, abundant and rich steam when a ladle of water is thrown on them. This heat storage means the Saunatonnttu can be instantly ready for you at any time.

The small safety distances required bring flexibility to sauna interior design, and the heater can be easily integrated into a raised floor. The Saunatonnttu has a small handy controller for all heater parameters.

The Saunatonnttu is 500 mm in diameter and 1090 mm high.

Sauna Heaters

HEATERS

HELO 3 YEAR WARRANTY

Something for everyone

Your choice of Helo sauna heater will depend in part on personal taste, and in part on the functional demands of the sauna cabin. With many cabins you have more than one choice. If you need help finding the best option for your sauna layout and type, please do not hesitate to contact Helo on 01342 - 300 555.

JUNIOR

The latest slim-line heater designed for compact saunas. Supplied with stainless steel outer case and neat rock grill, Junior is controlled by a safe and neat low voltage touch pad with LED display mounted outside the cabin. 10kg rock is included. 3kW single phase connection only. Supplied with remote control.

Finish: Stainless Steel
3.0 kW - £ 839

PD30

A classic Helo sauna heater - very compact, mounted on a separate bracket so the built-in controls may be placed left or right. A dual-band timer, thermostat control and 10kg of rock are included. 3kW single phase connection only. Supplied with built-in controls.

Finish - Red
3.0 kW - £ 495
Only available with built in controls

CUP

Traditional design used in many thousands of saunas over the years. With alu-zinc case and durable Incalloy elements, the built-in controls may be moved from the front to left or right as required. Wall hung on pre-fitted brackets, this heater is supplied with dual-band timer, thermostat control and 15 or 23kg of sauna rock dependent on kW rating. A version for use with remote control panel (sold separately) is also available. 4.5 - 8kW single or three phase connection.

Finish: Black

Heater with built-in controls		Heater ready for connection to separate control	
3.0 kW	£ 371	3.0 kW	£ 287
4.5 kW	£ 402	4.5 kW	£ 298

8.0 kW	£ 440	8.0 kW	£ 353

For a complete overview of all our sauna heaters

SOFTHOT

Named for its ability to produce large amounts of steam from an exceptionally large rock store - up to 30kg - this model benefits from a separate mounting bracket allowing built-in controls to be placed left or right as appropriate and the option of a floor stand for greater flexibility e.g. placing heater in the centre of the cabin. A version for use with remote control panel (sold separately) is also available. 4.5 - 8kW single or three phase connection.

Finish: Stainless Steel

Heater with built-in controls		Heater ready for connection to separate control

6.0 kW	£ 679	6.0 kW	£ 606
8.0 kW	£ 715	8.0 kW	£ 643

HELO WOOD BURNING HEATER

HELO wood burning stoves are ideal for purists who want to experience the unique pleasure of sauna bathing outdoors. Even preheating the sauna is something to look forward to—nothing compares to the smell, feel and traditional atmosphere of burning natural wood. Robust steel casing and extra large rock pocket ensure a rich and mellow steam. The ultra-efficient burning system keeps the heater free of soot.

HELO wood burning stoves come in sizes with outputs ranging from 12 - 28kw.

FINNISH TRADITION

Finns have had an ongoing love affair with saunas for more than 1000 years. Who better then to lead in the innovation and design of modern sauna heaters?

HELO's Finnish roots ensure originality and expertise are at the heart of every sauna heater we produce. Sometimes we collaborate with leading designers. Sometimes innovation is the exclusive result of our ongoing research and development. Either way, our experience and passion is your guarantee that every HELO sauna heater is purpose-built to provide the very best and most genuine sauna experience available.

all our sauna heaters

■ SKLE LAAVA

Freestanding Helo SKLE Laava heaters have been an industry standard for more than 25 years. Designed for large, domestic or commercial sauna rooms, Laava heaters are robust, easy to maintain and their 60 kg of stones create an attractively soothing sauna climate. Laava's separate control unit makes instant regulation of the heater's high capabilities very easy.

Graphite, 725x540x500mm (hxwxd), Recommended amount of rocks 60kg. Check safety distances in the operating manual prior to installation and use.

Prices:

9 kW	£ 1 196
10.5 kW	£ 1 279
12 kW	£ 1 355
15 kW	£ 1 498

■ SKLA MAGMA

Helo SKLA Magma is specially engineered for larger commercial saunas that require durable, powerful and cost-efficient heaters—without compromising on the rich steam and soothing sauna atmosphere. Available in a variety of models to suit different business needs, Magma heaters also offer a choice of traditional and digital control systems. All Magma heaters accommodate 120 kg of rocks, ensuring a genuinely ideal sauna climate for guests.

Graphite-coloured, 700x895x520mm. Holds a full 120 kg of stones. Check safety distances in the operating manual.

18 kW	£ 2 186
21 kW	£ 2 363
26 kW	£ 2 833

PROFESSIONAL HEATERS

Magma and Laava heaters are ideal for professional sauna environments thanks to their high rock capacity, generating a luxurious and stable sauna climate in larger spaces. Sturdy, intelligently-engineered construction minimises maintenance and ensures many years of problem-free performance.

Control units

HELO 3 YEAR WARRANTY

Managing the temperature, timing and comfort features of your sauna should be as relaxing as the bath itself. Depending on the option you choose, HELO sauna control units make it easy to regulate the climate, pre-heat the cabin so it's ready when you are or just soften the lights—all with a few simple taps on the touchpad.

Sauna Accessories PREMIER

A selection from Helo's premier range will add the finishing touch to the interior of your sauna. Finished in elegant Beech wood with smart branded satin fascia, sauna essentials include sandtimer, towel rack, thermometer and hygrometer. There is a useful combined thermometer/hygrometer or for those who prefer it, a liquid type thermometer. Sauna pails are offered in long lasting and attractive stainless steel or aluminium with matching ladles with a pail to recess neatly into the sauna bench. Traditionalists will like the wooden pail with rope handle.
