## "ULTIMATE" STORAGE REEL Specifications Sheet

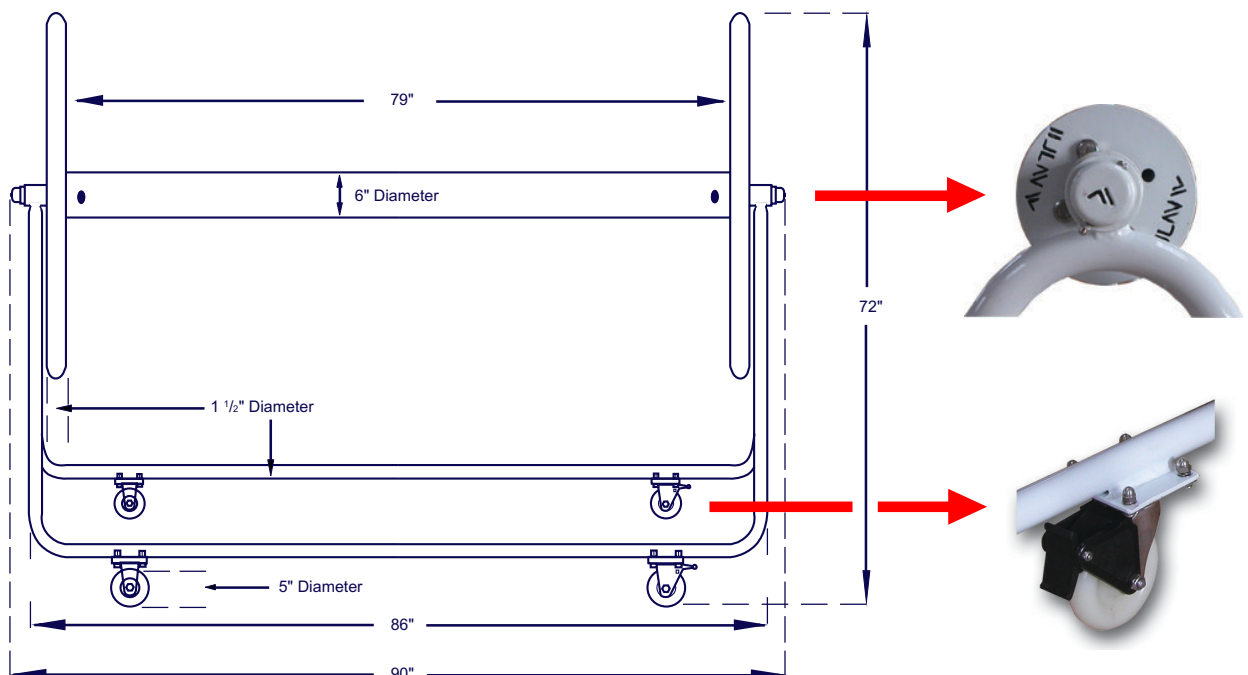

### STORAGE REEL SPECIFICATIONS

The "Ultimate" Storeel is a high-capacity storage unit for swimming racing lanes. It is of white powder coated, all aluminum construction. The center spool's diameter is 6", designed specifically to minimize damage to the discs when removing lanes from the pool. The "Ultimate" is mounted on four 5" casters, all of which rotate and have brakes attached. Its capacity is seven 25m 4Runner or four 25m 6" lanes. A protective mesh cover is sold separately.

*The "Ultimate" Storage Reel is supported by a 3-year warranty.*
